

Assisted Distance Learning

Learnfast have re-defined learning for those who cannot attend training at our training centers. We have combined the best parts of in-class training, distant/correspondence learning and online self-paced learning to create a unique and effective Assisted Distant Learning offering.

What Makes It Different?

We created Assisted Distance Learning by using a combination of correspondence based methods and combine it with Live Virtual Classroom time, all managed complexly online, so that the student is never left alone to do self-study only but also never having to attend a class in person.

What About Flexibility!

Our Assisted Distance Learning program is designed for working professional or students not close to any of our training centers. Your progress is all managed online and all our Virtual Classroom sessions are recorded and made available for download afterwards. So even if you cannot attend the online help sessions, you can still watch them afterwards.

What Will You Get In Your Kit?

- Introduction Letter
- Training Manual
- Course Schedule
- Assignment
- Feedback Form
- Notepaper
- Pen

Please Turn Over

1. Registration

Contact us as per the details provided to begin the process. Once we have received your registration form, we will issue you with a tax invoice.

2. Learning Kit & Student Portal

Once payment has been received, your learning kit will be released and your login details to the Student Portal will be emailed. The Student Portal will become active at least 2 weeks prior to the commencement of the course.

3. Orientation Session

Once you have received your kit and login details, you will be emailed the date and time of the orientation session. This session is to make sure that you know how to get started with your program and when the virtual classrooms are.

4. Your Personal Tutor

We send you details of your personal tutor. Your tutor will be carefully chosen as an expert in your field of study. Now your tutor knows about you, and you know about your tutor.

5. Virtual Classrooms

You will have to attend at least one virtual classroom per week. These sessions are held online and will discuss frequently asked questions and difficult topics. These sessions are held two times a week for flexibility.

6. Getting Help

You will have numerous ways to get help. This can be in the form of submitting your questions online, participating in the student online forums or asking your instructor during the virtual classrooms.

7. Assessment

You will have to submit a assignment at the end of the course. This assignment will be available on the student portal with detailed instructions.

8. Certificate

On completion of your Certification we shall send you, your certificate electronically.

9. What Now

Let a training consultant contact you about the registration dates and to discuss the courses more in-depth by simply sending an email to training@learnfast.co.za or alternatively, call our head office on +27 11 262 2054
