

# Online Learning

Do a course at your own pace via our "myWay Online Learning".

Studying via online has never been this easy and effective, with supported interactive online video lectures, extra resources and many more.

On enrolment we issue our learners with a username and password and 12 months access to the online portal.

Courses are designed in video with audio.

At the end of each module, learners are required to complete a small assessment to ensure all the work covered is fully understood.

The results of your assessment will be available immediately, with no delay in moving forward unless you require additional support.

On successful completion of the course, learners will receive a Certificate of Completion within 24-48 hours.

9:41

Monday, January 21

You will have a course coach and lecturer assigned to you so that you never feel alone and have support whenever you need. Your coach will look after you and your study health, encouraging you to progress constantly.

#### Advantages of Online Learning:

1. You can learn whenever you want
2. You can learn in the comfort of your own home, during time frames suitable to your schedule
3. Online courses look great on your resume as it shows commitment to further studies
4. Self-paced learning and setting personal goals and targets around your availability
5. Lower costs compared to in-class and mentored learning sessions
